

PER I TURISTI STRANIERI: GUIDARE IN ITALIA

- **PARKING**

In town areas parking places are usually designated by road-surface markings in three different colours, as follows:

Blue lines indicate a “pay and display” parking place. An accompanying sign gives the relevant details including paying hours and parking charges. Charges vary from town to town.

The parking receipt must be displayed on the dashboard inside the car. Payment can be made either at local parking meters with coins, or by purchasing a “scratch and display” tag at tobacconists’ or newspaper shops.

White lines indicate a free-of-charge parking place. An adjacent sign may indicate a time restriction requiring that a parking disc be set to time of arrival and displayed on the dashboard.

Yellow lines indicate a parking place reserved for special categories of users (such as disabled motorists, local residents, municipal services and utilities) holding a permit issued by the relevant Municipality.
